### **DETAILED ACTION**

1. The amendment filed on November 7, 2005 has been received and considered. By this amendment, claim 1 has been amended, claims 3 and 5 have been cancelled and claims 1, 2, 4 and 6-17 are pending in the application.

#### ***Specification***

2. In view of the applicant's modification to the Abstract and Specification, the Examiner is withdrawing the objection which was made against the specification in the last Office action.

#### ***Drawings***

3. The drawings were received on November 7, 2005. These drawings are acceptable.

#### ***Allowable Subject Matter***

4. Claims 1, 2, 4 and 6-17 are allowed.

5. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach an electrode apparatus which includes a central body and a multiplicity of arms extending from the body, wherein the central body is comprised of a silicone material with embedded metal features and the multiplicity of arms are comprised of a silicone material with 125 separate embedded metal traces. Although the prior art does teach a central body and a multiplicity of arms extending from the body, wherein the central body and arms are comprised of a silicone material with embedded metal traces, it fails to teach the incorporation of specifically 125 separate metal traces within the arm segments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
